Occupational Therapy with Older Adults Jul 18 2022 Gain the focused foundation needed to successfully work with older adults. *Occupational Therapy with Older Adults: Strategies for the OTA, 5th Edition* is the only comprehensive book on occupational therapy with older adults designed specifically for the occupational therapy assistant. It provides in-depth coverage of each aspect of geriatric practice — from wellness and prevention to managing chronic conditions. Expert authors Helene Lohman, Amy Shaffer, and Patricia Watford offer an unmatched discussion of diverse populations and the latest on geriatric policies and procedures in this fast-growing area of practice. UNIQUE! Focused coverage emphasizes the importance of the role of an OTA in providing care for older adults. UNIQUE! Coverage of diverse populations, including cultural and gender diversity, prepares OTAs to work with older adults using cultural sensitivity. UNIQUE! Critical topic discussions examine concepts such as telehealth, wellness, and health literacy. Interdisciplinary approach highlights the importance of collaboration between the OT and the OTA, specifically demonstrating how an OTA should work with an OT in caring for older adults. Case studies at the end of chapters help to prepare for situations encountered in practice. NEW! An ebook version is included with print purchase and allows access to all the text, figures, and references, with the ability to search, customize content, make notes and highlights, and have content read aloud. NEW! Evidence Nuggets sections highlight the latest research to inform practice. NEW! Tech Talk feature in many chapters examines the latest technology resources. Revised content throughout provides the most current information needed to be an effective practitioner. Updated references ensure the content is current and applicable for today's practice.

Nursing Home Federal Requirements Sep 27 2020 "[The book] lists all the federal requirements that [are evaluated by state surveyors during the annual survey visit to nursing homes and for complaint visits. The exhibit section contains forms used by surveyors to gather data during the survey visit. Visually, the format makes the regulations easy to read. If nursing home staff used the book to prepare for a survey, they would be well prepared." Marcia Flesner, PhD, RN, MHCA University of Missouri-Columbia From Doody's Review The Federal government, together with more than 50 advocacy groups, has spent the past 40 years writing and refining the rules and guidelines in this manual. This book presents the latest federal guidelines and protocols used by federal surveyors in certifying facilities for participation in Medicare and Medicaid funding. It is an essential resource for long-term care facilities to have on hand to be ready for a survey at any time. It provides information straight from CMS's Internet-Only Manual-in print and at your fingertips for easy access. Divided into four accessible and user-friendly parts, this manual includes: Federal requirements and interpretive guidelines Rules for conducting the survey Summary of the requirements for long-term care facilities and surveyors CMS forms commonly used by surveyors This newly updated and revised edition spans every aspect and service of a nursing home and represents the latest requirements to ensure that outstanding quality assurance and risk management programs are in place. New to This Edition: Section on how to use manual Summarization of federal requirements Updated definitions of Medicare and Medicaid Compliance requirements with Title VI of the Civil Rights Act of 1964 SNF/Hospice requirements when SNF serves hospice patients SNF-based home health agencies Life safety code requirements Changes in SNF provider status Surveyor qualifications standards Management of complaints and incidents New medical director guidelines

Occupational Therapy with Elders - E-Book Sep 08 2021 The only comprehensive book on geriatric occupational therapy designed specifically for the COTA, *Occupational Therapy with Elders: Strategies for the COTA, 3rd Edition* provides in-depth coverage of each aspect of geriatric practice, from wellness and prevention to death and dying. A discussion of foundational concepts includes aging trends and strategies for elder care, and coverage of emerging areas includes low-vision rehabilitation, mobility issues including driving, and Alzheimer's disease and other forms of dementia. Expert authors René Padilla, Sue Byers-Connon, and Helene Lohman offer an unmatched discussion of diverse populations and the latest on geriatric policies and procedures in this fast-growing area of practice. Unique! A focus on the occupational therapy assistant highlights the importance of COTAs to the care of elder clients. Case studies illustrate principles and help you apply what you've learned to actual situations. Key terms, chapter objectives, and review questions highlight important content in each chapter. Use of the term "elder" reduces the stereotypical role of dependent patients and helps to dispel myths about aging. A multidisciplinary approach demonstrates how the OT and the COTA can collaborate effectively. Unique! Attention to diverse populations and cultures prepares you to respect and care for clients of different backgrounds. Unique! The companion Evolve website makes review easier with more learning activities, references linked to MEDLINE abstracts, and links to related OT sites. Unique! A discussion of elder abuse, battered women, and literacy includes information on how the COTA can

address these often-overlooked issues. New information on alternative treatment settings for elders reflects new trends in OT care. Updated information on Medicare, Medicaid, and HIPAA regulations discusses the latest policies and how to incorporate the newest procedures into practice. Significant additions are made to the chapters on public policy, dementia, and oncology.

Dementia Care Aug 27 2020 Dementia care: a practical photographic guide is a unique illustrated guide to caring for people with dementia in care homes. It presents practical prevention and management techniques for resistance to care in common activities of daily living, explores cognitive loss, physical loss and sensory loss in dementia, and examines means of improving communication with those with dementia to enhance their understanding of their environment and improve their compliance in care.

Occupational Therapy with Elders - eBook Mar 02 2021 Get the focused foundation you need to successfully work with older adults. *Occupational Therapy with Elders: Strategies for the COTA, 4th Edition* is the only comprehensive book on geriatric occupational therapy designed specifically for the certified occupational therapy assistant. It provides in-depth coverage of each aspect of geriatric practice — from wellness and prevention to death and dying. Expert authors Helene Lohman, Sue Byers-Connon, and René Padilla offer an unmatched discussion of diverse populations and the latest on geriatric policies and procedures in this fast-growing area of practice. You will come away with a strong foundation in aging trends and strategies for elder care in addition to having a deep understanding of emerging areas such as low-vision rehabilitation, driving and mobility issues, Alzheimer's disease and other forms of dementia, new technological advancements, health literacy, public policy, dignity therapy, and more. Plus, you will benefit from 20 additional evidence briefs and numerous case studies to help apply all the information you learn to real-life practice. It's the focused, evidence-based, and client-centered approach that every occupational therapy assistant needs to effectively care for today's elder patients. UNIQUE! Focus on the occupational therapy assistant highlights the importance of COTAs to the care of elder clients. Unique! Attention to diverse populations and cultures demonstrates how to respect and care for clients of different backgrounds. UNIQUE! Discussion of elder abuse, battered women, and literacy includes information on how the OTA can address these issues that are often overlooked. User resources on Evolve feature learning activities to help you review what you have learned and assess your comprehension. Case studies at the end of certain chapters illustrate principles and help you understand content as it relates to real-life situations. Multidisciplinary approach demonstrates the importance of collaboration between the OT and OTA by highlighting the OTA's role in caring for the elderly and how they work in conjunction with occupational therapists. Key terms, chapter objectives, and review questions are found in each chapter to help identify what information is most important. NEW! 20 Additional evidence briefs have been added to reinforce this book's evidence-based client-centered approach. NEW! Incorporation of EMR prevalence and telehealth as a diagnostic and monitoring tool have been added throughout this new edition. NEW! Expanded content on mild cognitive impairment, health literacy, and chronic conditions have been incorporated throughout the book to reflect topical issues commonly faced by OTs and OTAs today. NEW! Coverage of technological advancements has been incorporated in the chapter on sensory impairments. NEW! Other updated content spans public policy, HIPAA, power of attorney, advanced directives, alternative treatment settings, dignity therapy, and validation of the end of life. NEW! Merged chapters on vision and hearing impairments create one sensory chapter that offers a thorough background in both areas.

Restorative Care Nursing for Older Adults Feb 25 2023 Print+CourseSmart

Annual Review of Gerontology and Geriatrics, Volume 36, 2016 Jan 12 2022 "It is with great pleasure that I encourage you all to read and share the amazing wealth of information provided in this edition of *The Annual Review of Gerontology* ... This volume brings together an incredible amount of work in the area of physical activity and specifically exercise, and the challenges we face in engaging older adults in optimal amounts and intensities of activity. The authors... have done a remarkable job of highlighting practical ways to share information that is known to be effective from research trials and clinical practice." -Kathleen Mangione, PhD, PT, GCS From the Foreword *The 36th Annual Review of Gerontology and Geriatrics* is replete with state-of-the-art scholarship along with a cornucopia of research-based and innovative strategies for optimizing function in older adults through exercise and physical activity. Chapters address salient clinical, programmatic, and policy considerations related to implementation and dissemination of exercise programs across a variety of settings. An international cadre of expert nurses, physicians, physical therapists, and exercise physiologists, among other health care professionals, also focus on what is known about specific exercises for older adults—including benefit versus harm associated with each—and provide recommendations for their practical use. The book addresses public policy related to exercise and how policy affects physical activity among older adults. It considers evidence linking physical activity to positive outcomes along with practical issues such as pre-exercise screening and risk stratification. Chapters cover aerobic, resistance, balance, and stretching exercises, along with recommendations for individuals suffering from specific diseases such as arthritis or dementia. Also addressed is physical activity as a determinant of health, and cross-setting approaches to increase function and physical activity. Of particular value is the attention given to the challenges of actually getting individuals to partake in exercise recommendations along with solutions on how to overcome these challenges. With a focus on helping adults to "be active in their own way," the authors share positive approaches to motivating and educating this population. Key Features: Presents state-of-the-art scholarship regarding ways to promote physical activity among older adults Written by national and international experts Focuses on aerobic, resistance, balance, and stretching exercises along with recommendations for people with impairments Describes real world applications across multiple disciplines and settings Offers strategies for overcoming resistance to exercise

Nursing Older People Jan 20 2020 This edition captures the underlying new approach in patient centred care and thinking from a multidisciplinary perspective. It highlights the most recent ideas and experiences of policy analysts, nurses, doctors, allied health professionals and the consumer experience from both Australia and Internationally. Contemporary research compliments the vignettes of practice and in conjunction with accompanying 'video' clips serve to capture the realities of caring for older people in our society. Change in focus of health care system with the patient centered care taking precedence and this new philosophy is incorporated into the third edition Key focus on issues and innovations in aged care, with evidence-based examples and clinical vignettes included throughout the new edition Cases are incorporated into each chapter to re-enforce and highlight many issues faced by nurses and health care workers in aged care Written by experts in the field of aged care Accompanying DVD, provides video clips of interviews with health practitioners and it highlights innovations to health care demands; issues such as dementia and broader aging issues. These serve to re-enforce the underpinning interdisciplinary and innovative approach of the third edition. An Evolve ebooks will be available of this title This text reflects new thinking in care; include the ideas and experiences of policy analysts, nurses, doctors, allied health

professionals and the consumer experience mainly from Australia but with international contributions and be based on contemporary research. It will also point readers to 'the evidence' where it exists, and include vignettes of practice and 'video' clips where appropriate.

Lifestyle Nursing May 16 2022 Lifestyle medicine is an evidence-based approach to helping individuals and families adopt and sustain healthy behaviors in preventing, treating, and oftentimes, reversing chronic diseases. This fast-growing specialty operates off six main principles including nutrition, physical activity, stress resilience, cessation or risk reduction of substance use, quality sleep, and social connectivity. Nurses are the primary providers of hospital-based patient care and deliver most of the nation's long-term care. Within healthcare, nurses are often tasked with educating patients and families and are thereby well-positioned to address lifestyle intervention with patients. Lifestyle Nursing examines the concepts of lifestyle medicine and nursing practice, it is specifically designed to help nurses introduce the concepts of lifestyle medicine to readers while also encouraging them to focus on their own wellness. This book features nutritional guidelines and supplemental materials operationalizing this basic nutrition knowledge into personal and patient wellness. It addresses evidence-based findings of chronic diseases including heart diseases and stroke, type 2 diabetes, and cancers, which can often be prevented by lifestyle interventions. Drawing from nursing and medical literature, this volume in the Lifestyle Medicine series encourages incorporation of lifestyle principles into nursing practices professionally and personally which will lead to overall improved patient outcomes and happier, healthier nurses.

Keeping Busy Jun 05 2021 The description of each activity includes step-by-step instructions, as well as tips on how to adapt it for small or large groups, for individuals at home or in an organization, or people who are bedridden.

Designing for Alzheimer's Disease Dec 31 2020 Designing for Alzheimer's Disease offers a complete blueprint for effective design development and implementation, with the full benefit of Elizabeth Brawley's extensive professional background in design for aging environments and her own family's experience with Alzheimer's disease.

EMDR Therapy and Mindfulness for Trauma-Focused Care Sep 20 2022 Based on the belief that mindfulness is a critical component in the delivery of EMDR, this innovative text integrates mindfulness-informed practice with EMDR therapy to create an effective new approach for healing trauma. Based on current evidence-based research, the book demonstrates—with clear, step-by-step guidelines—how clinicians can conceptualize and deliver trauma-focused care in both mental health and addiction treatment. Infused with practical applications, the book offers clearly articulated and effective approaches that provide a concrete beginning, middle, and end of treatment planning. Following a description of the long history of mindfulness practices, the book offers guidelines for developing one's own mindfulness practice—emphasizing the use of trauma-focused language—and suggestions for teaching specific techniques to clients. The book describes both classic and creative mindfulness practices, including breath awareness/sensory grounding, breath meditation, body scanning, feeling tone meditation, labeling, standing meditation, walking meditation, and loving-kindness meditation, along with using day-to-day objects as a meditative focus, movement practices, the expressive arts, and other forms of creativity. Key Features: Offers a complete framework for healing trauma by integrating mindfulness-informed practice with EMDR therapy Provides clearly articulated, step-by-step approaches that are evidence-based Authored by noted experts in EMDR and mindfulness-based therapies Includes guidelines for developing one's own mindfulness practice and tools for teaching specific practices to clients Describes both classic and creative mindfulness practices

Designing a Better Day Jun 24 2020 Winner of the 2007 Polsky Prize given by the ASID Foundation As the U.S. population ages, adult day services have become an integral component in the continuum of care for elderly people. Providing a variety of social and medical services for cognitively or physically impaired elderly people who otherwise might reside in institutions, these facilities can be found in a variety of building types, from purpose-built facilities to the proverbial church basement. They also vary widely in their philosophies, case mix, funding mechanisms, and services. In this interdisciplinary study, Keith Diaz Moore, Lyn Dally Geboy, and Gerald D. Weisman offer guidance for planning and designing good-quality adult day services centers. They encourage architects, caregivers, and staff members to think beyond the building, organizational mission, and staffing structure to conceive of the place that emerges as an interrelated system of people, programming, and physical setting. Through case studies, thoughtful explanations, and well-crafted illustrations, Designing a Better Day provides caregivers, architects, and administrators tools with which they can make qualitative changes for participants and their families. Organized into three parts—creating awareness, increasing understanding, and taking action—this book will be a key resource for professionals involved in creating and maintaining effective adult day services centers.

Caring for People with Dementia Dec 23 2022 Skills in caring for people with dementia are increasingly demanded of all health care practitioners as the numbers of diagnosed increase. Caring for People with Dementia presents Christine Brown Wilson's latest research into improving dementia care for both non-expert students and junior staff as well as more senior managers. The text first guides the reader through the underpinning theory behind the different approaches to person centred and relationship centred care and provides case scenarios with a range of practical strategies staff and students have developed and implemented. It then presents the different levels of the organisational change using practical strategies adopting a person centred and relationship centred approach involving the person with dementia and their families. This book will be indispensable reading for all nursing and healthcare students and practitioners who want to improve the quality of life for people with dementia. Christine Brown Wilson is Associate Professor at the University of Queensland, Australia.

Puppetry in Dementia Care Oct 09 2021 Even in the later stages of the disease, when memory, words and relationships are affected, it is possible for people with dementia to express emotions, imagination, humour, sensitivities and personal preferences. This book demonstrates the many ways in which puppetry and associated art forms such as singing and story-telling can be used in a person-centred way to create opportunities for these human responses to emerge. The author describes different scenarios in which puppetry can help facilitate connections, including in response to changes in relationships, communicating when words fail and in times of distress or conflict. She explains how puppets can be used to stimulate memories, celebrate life achievements and promote self-esteem and confidence, as well as with those nearing the end of life as part of palliative care. Strategies for introducing puppetry and other forms of creative stimulation into daily care are suggested, and real examples are used to illustrate how creativity may benefit the person with dementia beyond the immediate session. Step-by-step instructions for making a variety of puppets are also included. This thought-provoking book will be a source of inspiration and practical ideas for care staff and activity coordinators, creative arts

therapists, occupational therapists, puppeteers and other artists working in care settings, as well as relatives of people with dementia looking for new ways to connect with their loved ones.

Geropsychological Interventions in Long-Term Care Nov 10 2021 Older people are entering nursing homes later and sicker than ever before, thus presenting as more physically fragile and complex residents and requiring more advanced care and treatment. To this end, Hyer and Intrieri have gathered together a group of health care professionals who are genuinely dedicated to the care and research of long-term care (LTC) environments. This group seeks to push the envelope for improved use of professional time, effort, and input and in this remarkable book, share their ideas with you. By applying the Selective Optimization with Compensation (SOC) model to various care settings, the editors are able to examine current LTC practices and existing psychosocial issues confronting older LTC patients; either support or challenge them; and offer suggestions and strategies, such as Cognitive Behavior Therapy, for improving the LTC system and residents' physical, psychological, emotional, and social health. This book provides insight on the psychological issues facing long-term care residents for a plethora of health care professionals, including: Physicians and geriatricians who care for older adults in the LTC system Nurses and geriatric nurse specialists Social workers Activity coordinators Physical, occupational, and speech therapists within an LTC setting who are seeking ways to explain behavior and empower the residents they care for Psychologists and psychiatrists whose practice focuses on older adults

Enhancing the Quality of Life in Advanced Dementia Mar 22 2020 Published in 1999, *Enhancing the Quality of Life in Advanced Dementia* is a valuable contribution to the field of Psychotherapy.

A Creative Toolkit for Communication in Dementia Care Jan 24 2023 How can carers and relatives support a person's identity, relationships and emotional wellbeing through changes that occur in the later stages of dementia? Drawing on over ten years' experience of working with people with dementia, Karrie Marshall provides a toolkit of tried and tested creative activities to support communication and relationships. Activities are vast and varied, with outdoor activities such as bird-watching and star-gazing aimed at supporting physical health, artistic activities such as collage creation to support identity, and musical activities such as sounds and voice warm-ups to support self-expression. Marshall also sensitively covers end of life care for people with dementia, explaining how emotional support can be provided through gentle breathing activities and even puppetry, as well as covering the legal importance of power of attorney.

Enabling People with Dementia: Understanding and Implementing Person-Centred Care Mar 26 2023 This new updated edition challenges the perceptions, beliefs and attitudes of professionals working in dementia care settings by drawing on the theory of person-centred care. It demonstrates the importance of this theory for interacting with and caring for people with dementia. It also provides an overview of the theory in relation to two other well-known theories on dementia, and stresses the need to consider the world from the perspective of people with dementia. Moreover, the book examines the importance of dementia care environments, positive interactions, meaningful activities and the concept of personhood, which are all essential to improving the health and wellbeing of people living with dementia. In closing, it underscores the need to remember that the focus of care should be on maximizing the person's abilities, enabling them, and promoting person-centred care. Given its content and style, the book offers a resource that can be read and understood by health and social care professionals alike, as well as anyone else caring for someone with dementia, including family members and carers.

End-Stage Dementia Care Mar 14 2022 People with mid-stage dementia are served by special care units in long-term care facilities, although as these residents deteriorate, they are transferred out of the unit and into a general nursing home unit. These nursing homes are not equipped to deal with palliative needs of end-stage dementia care. The book addresses those needs. With this in mind, Part One examines the stages of dementia end-stage in particular. Other chapters in this section provide background on the hospice movement and hospice concepts; the idea of maintaining personhood; and administration of a late-stage care unit. Part Two focuses on treatment approaches for common needs in end-stage dementia - medical and physical care; a supportive environment; the fundamentals of care; psychopharmacology; and therapeutic activities. Part 3 contains chapters on family-centred care; legal and ethical issues; programme evaluation; and future opportunities.

Hearing the Person with Dementia Nov 22 2022 Written both for families and professional caregivers, this book clearly explains what happens to communication as dementia progresses, how this may affect an individual's memory, language and senses, and how carers may need to adapt their approach to communication as a result. Advocating a person-centred approach to dementia care, the author describes methods of verbal and non-verbal communication that work, and strategies for communicating more effectively in specific day-to-day situations, such as at mealtimes, while helping the person with dementia to bathe or dress, and while out and about. Exercises at the end of each chapter encourage the carer to reflect on what they have learnt and apply it to their own circumstances, and guidelines for creating a life story with the person with dementia as a means of promoting good communication are also included. This concise, practical book is essential reading for family caregivers, professional care staff, and all those who work with, or who are training to work with, people with dementia.

A Child and Youth Care Approach to Working with Families Aug 19 2022 Use this newly developed family-oriented approach to be a better youth worker! In *A Child and Youth Care Approach to Working with Families*, practitioners and trainers in a new child methodology show you how to expand your youth program to involve family work using the Child and Youth Care Approach. This book provides a new way of looking at work with families in which the helpers are involved in the daily life of the families they are supporting. This book will be valuable to practitioners and instructors of the Child and Youth Care Approach as well as to youth workers, foster parents, and social workers who want to develop their own knowledge and skills in working with families. *A Child and Youth Care Approach to Working with Families* is designed to help youth care workers engage in a working relationship with young people and families that can facilitate change and allow families to live together more effectively with less stress. This book emphasizes that the family be involved in the care and treatment of young people. The authors reveal methods for connecting with each family by reflecting their rules, roles, culture, rhythm, timing, and style. This book will help you: develop your proficiency with the Child and Youth Care Approach to working with families shift from working in residential-only programs to in-home family prevention create as many moments of connection as possible among family members learn what boundaries need to be maintained to gain credibility with families provide effective supervision for staff working with families create activity-oriented family-focused work to develop family relationships and more! The authors of *A Child and Youth Care Approach to Working with Families* offer

unique insight into the successes and failures of those who have moved into this area of helping troubled youths and adolescents. Special features of this book include specific learning exercises and short stories and case scenarios for you to practice alone or with your colleagues, as well as tables and figures. This book will introduce students, practitioners, and programs directors fully to this latest development in the field and help them engage more effectively with families. All royalties from this book will go to support CYC-Net (www.cyc-net.org).

Reablement in Long-Term Care for Older People Feb 01 2021 Our societies are ageing, and we need to identify sustainable and person-centred solutions for supporting frail older people in their homes. Reablement offers a radical new integrated care approach which supports older people to regain and maintain functioning and independence. This interdisciplinary book provides an introduction to the remarkable, if haphazard, international growth in reablement policies and practices in aged care over the past 20 years. Incorporating theoretical and empirical research, it considers benefits for clients and care workers, cost-saving potentials and reablement provision for people with dementia. Finally, the book reflects on key findings, challenges and the way forward for long-term care for older people.

Teaching Dementia Care Jul 26 2020 Dementia afflicts millions of Americans and deeply affects the lives of their loved ones. Good care has been proven to have a significant effect on the quality of life of a person with dementia. To ensure good care, staff members of nursing homes, assisted living facilities, and adult day-care centers, and providers of home care must be thoroughly and continually trained by qualified and well-prepared professionals. Nancy L. Mace, coauthor of *The 36-Hour Day*, has created the ultimate teachers' guide for dementia care training. Rich with information and with tools for effective communication between teacher and student, the text supplies instructors with in-depth lessons and includes relevant charts, tables, and handouts, which may be customized to suit specific programs. Good training is the foundation for a confident and competent caregiver and supports the dignity and well-being of persons with dementia and their families. With her unmistakable compassion, humor, and wisdom, Mace has provided a much-needed guidebook for better teaching and better care.

Nursing Home Federal Requirements, 8th Edition Feb 13 2022 Print+CourseSmart

Day by Day Oct 29 2020 A book for people who are caring for an older adult with dementia. It informs the reader about dementia, what it is, what treatments exist, how to cope with problems that arise in caregiving, how to care for oneself. There are sections on selecting a nursing home, end of life, funerals, and an index.

Geriatric Neuropsychology Dec 11 2021 The text provides a lifespan developmental approach to neuropsychology. It addresses the many issues in neuropsychological assessment that differ between younger and older adults. It describes the symptoms, neuropathology, diagnostic considerations, and treatment options of common neurological disorders associated with aging. It also addresses special considerations related to geriatric neuropsychology, such as ethical issues, family systems issues, decision-making capacity, cultural consideration, and medical/medication/substance use issues. Additionally, a list of resources for the elderly and their families is also provided.

More Than a Game Nov 29 2020 Activity services departments in long-term care need to provide activities for an increasing number of residents with more varied cognitive and physical abilities. *More Than a Game* provides therapeutic activities for today's resident, and ideas to develop a more productive, successful activity services department. As a guide to providing quality of life for every resident, these 37 innovative therapeutic activities and their variations are designed to suit the individual needs, current abilities, and former lifestyles of older adults in long-term care. The activities cover a wide array of cognitive levels and are appropriate for use in nursing homes, assisted-living facilities, continuing care retirement communities, and adult day-care programs. The book includes a whole chapter of activities designed for individuals with Alzheimer's disease, as well as many ideas for intergenerational programs. A springboard of creative ideas for innovative programming, *More Than a Game* is an inspiration to professionals and students.

The Palgrave Handbook of Ageing and Physical Activity Promotion Feb 19 2020 The ageing of our population is a key societal issue across the globe. Although people are living longer, they need to be living longer in good health to continue to enjoy quality of life and independence and to prevent rises in health and social care costs. This timely and ground-breaking volume will provide an up-to-date overview of the factors that promote physical activity in later life. Despite advances in the fields of gerontology and geriatrics, sports and exercise science, sociology, health psychology, and public health, knowledge is largely contained within disciplines as reflected in the current provision of academic texts on this subject. To truly address the present and substantial societal challenges of population ageing, a multidisciplinary and collaborative approach is required. This handbook will inform researchers, students, and practitioners on the current evidence base for what physical activities need to be promoted among older people and how they can be implemented to maximise engagement. This handbook will be an invaluable resource for researchers, practitioners, policy makers, and students across the social sciences.

Social Work in Health Care Jul 06 2021 Here is an outstanding reference book of major readings in the field of social work in health care. Practitioners, educators, researchers, and students can use this landmark two-part volume to review dominant themes and critical issues in today's practice environment and to understand the evolution of current trends and emerging policies and programs. In this one desktop source book, hundreds of references relevant to the health care social work field are immediately accessible. Education, policy, practice, and research issues integral to social work's expanding role in health care are the main focus, with each chapter highlighting a theme of enduring importance to the field. Other outstanding articles related to the chapter's theme are cited in the appendix to each chapter which also includes a selected bibliography of suggested topical readings. Comprehensive new book filled with information vital to social workers in the health care field! Over 900 pages of scholarly articles by the foremost social work leaders in health care! 9 categories embrace the range of social work activity in the health care field! Exciting new ideas and practical suggestions for everyday dilemmas! Hundreds of references immediately accessible in one desktop source! Selected bibliography of topical headings provides sources for even more relevant articles! A MUST HAVE volume for instructors and students! Deepen your understanding of all aspects of social work practice in health care with this superb volume! Here is an outstanding reference book of major readings in the field of social work in health care. Practitioners, educators, researchers, and students can use this landmark two-part volume to review dominant themes and critical issues in today's practice environment and to understand the evolution of current trends and emerging policies and programs. *Social Work in Health Care* makes hundreds of references relevant to the health care social work field immediately accessible in this one desktop source book. Education, policy, practice, and research issues integral to

social work's expanding role in health care are the main focus, with each chapter highlighting a theme of enduring importance to the field. Other outstanding articles related to the chapter's theme are cited in the appendix to each chapter which also includes a selected bibliography of suggested topical readings. Find answers and ideas for everyday dilemmas in this all-inclusive, information-packed volume! Social workers practicing in the rapidly expanding health care field call upon a repertoire of skills to fulfill a variety of functions including direct patient care and contact with patients' families, education, and influencing organizational policies on their clients' behalf. The in-depth scholarship and the diversity of multiple approaches to health care social work, as presented in *Social Work in Health Care*, will have a strong impact on the field. Through the intertwining network of education, policy, practice, and research issues in the book, and professional discussion of those topics, a beginning point exists from which social workers can develop principles to guide their social work activities in the medical and health fields.

Annual Review of Nursing Research, Volume 31, 2013 Apr 15 2022 Print+CourseSmart

Reichel's Care of the Elderly Aug 07 2021 Geared specifically for the family practitioner, this text provides clinical approaches to the whole geriatric patient. Topics covered in this fifth edition include behavioural disturbances in dementia, driving and the older adult, and clinical practice guidelines in the elderly.

Toward Healthy Aging - E-Book May 24 2020 Provide holistic, compassionate nursing care for older adults! Based on evidence-based protocols, *Toward Healthy Aging, 11th Edition* helps you master gerontological nursing skills with an approach that focuses on health, wholeness, and the potential in aging. In promoting healthy aging, the text emphasizes caring and respect for the person. Special sections provide an honest look at the universal experience of aging. Written by gerontological nursing experts Theris A. Touhy and Kathleen F. Jett, this classic text helps you learn to apply scientific research, build critical thinking skills, and prepare for success on the NCLEX® exam and in clinical practice. *Promoting Healthy Aging: Implications for Gerontological Nursing* sections help you apply concepts to assessments and interventions. A *Student Speaks* and *An Elder Speaks* sections at the beginning of every chapter provide perspectives of older people and nursing students. *Nursing Studies* provide practice examples designed to assist you in assessment, planning, interventions, and outcomes to promote healthy aging. Learning objectives in every chapter introduce important content and define learning goals and expectations. Key concepts provide a concise review of the most important points found in each chapter. *Critical Thinking Questions and Activities* help you apply concepts and build clinical judgment skills. *Safety Alerts* emphasize QSEN competencies and safety issues related to care of older adults. *Tips for Best Practice* boxes summarize evidence-based nursing interventions for practice. *Research Highlights* boxes summarize important research studies in the field of gerontology. *Research Questions* include suggestions and ideas for pursuing nursing research. *Healthy People* boxes reference the goals cited in *Healthy People 2020*. NEW! Next Generation NCLEX® (NGN) examination-style case studies at the end of chapters include questions to help you prepare for the NGN exam. NEW! Completely updated content helps you develop clinical judgment skills, identified by the NCSBN and the AACN as a key attribute of professional nursing. NEW! Updated topics include COPD guidelines, theories of aging, medication use and misuse, palliative care, wound care guidelines, genomic research, and LGBT family relationships and sexuality in older adults.

Successful Aging Through the Life Span Apr 03 2021 This book explores concepts and practices for productive aging: What factors contribute to successful aging? What is the role of exercise and nutrition? What is the role of children and adults in interaction with elders? The chapters identify the best practices for successful aging, examine trends in intergenerational caregiving, and define roles and responsibilities across the life span. Topics addressed include: how to maximize productive engagement of older adults how multigenerational issues impact successful aging the ways in which a learning environment can promote intergenerational relationships.

Nursing Home Federal Requirements Dec 19 2019 Designated a Doody's Core Title!. Accessible and user-friendly, this updated edition of *Nursing Home Federal Requirements* contains information that is essential for nursing home administrators as well as educators and professionals preparing for licensure. It presents the latest federal guidelines and the procedures used by federal surveyors in certifying facilities for participation in Medicare and Medicaid. It is the only text that provides a comprehensive index to nursing home federal requirements. The volume spans every aspect and service of a nursing home, from telephone access and comfortable lighting to urinary incontinence treatment and proper drug storage. Administrators who implement these regulations will ensure that outstanding quality assurance and risk management programs are in place.

Help for the Caring Apr 22 2020 This much-needed bibliography and filmography brings together lists of books about Alzheimer's and caregiving, including biographies, poetry, and even fiction, as well as in instructional and dramatic films.

Dementia Care at a Glance Oct 21 2022 *Dementia Care at a Glance* is the perfect companion for health and social care professionals, nurses, students as well as family members and voluntary workers needing information and guidance about dementia care. Taking a person-centred and interpersonal approach, each chapter outlines an aspect of the experience of living with dementia and the steps that the nurse or healthcare professional can take to support them. This comprehensive book will assist readers to respond effectively, sensitively and with compassion to people living with dementia in acute settings, as well as in care environments and at home. It acknowledges the challenges that arise for people with dementia, family members and professionals and offers practical solutions based on current thinking and best practice. Presented in the bestselling *at a Glance* format, with superb illustrations and a concise approach. Covers the common forms and manifestations of dementia, their causes, and how to address them. Addresses a wide range of topics including, interventions, communication, care planning, medication, therapy, leadership as well as ethical and legal issues. Takes a positive holistic approach, including not only physical and mental health issues but social and spiritual implications and a person-centred focus throughout. Suitable for students on a range of healthcare courses. Supported by a companion website with multiple-choice questions and reflective questions.

Alzheimer's Disease Apr 27 2023 The updated edition of this unique guide provides practical and innovative strategies for care of people with Alzheimer's disease. Written from the viewpoint that activity-focused care promotes the resident's cognitive, physical, psychosocial, and spiritual wellbeing, the text is very readable and highly recommended for caregivers and families of people with Alzheimer's disease. * Provides effective strategies and age-appropriate activities to engage residents and includes forms and profiles for use by therapists and nurses * Presents a holistic treatment program * New topics include: sexuality and intimacy, couples with dementia, spirituality, refocusing activities for physically combative or violent situations

Ebersole & Hess' Toward Healthy Aging - E-Book May 04 2021 Get all the knowledge you need to provide effective care for adults as they age. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, Ebersole & Hess' Toward Healthy Aging, 9th Edition is the only comprehensive text to address all aspects of gerontological nursing care. The new ninth edition has been extensively revised and updated and now includes shorter, more streamlined chapters and pedagogical features to facilitate learning, covering the areas of safety and ethical considerations, genetics, communication with the patient and caregiver, promoting health in persons with conditions commonly occurring in later-life world-wide addressing loss and palliative care and much more. This new edition considers the experience of aging as a universal experience and the nurse's role in the reduction of health disparities and inequities as a member of the global community. Plus, it contains a variety of new learning features that focus the readers' attention on applying research and thinking critically in providing care to aging adults across the care continuum.
